DESCRIPTION

Frostaway is a defroster designed for deep freezers and freezer compartments care. Its specific action significantly accelerates the defrosting process since, by penetrating into the micro-cracks of ice, it quickly eliminates its excesses by reaching the walls of the refrigerator. It helps restore proper functioning of the appliance, thus helping to extend its service life and save energy. Easy and safe to apply, effective on ice but gentle on surfaces, it leaves a pleasant scent after use. Its characteristics also make it suitable for use in activities subject to the H.A.C.C.P. self-control system.
